AGENDA ITEM 3a

TO: MEMBERS OF THE HEALTH BENEFITS COMMITTEE

I. SUBJECT: Partnership in Health

II. PROGRAM: Health Benefits

III. RECOMMENDATION: Information Only

IV. BACKGROUND:

Kaiser Permanente (KP) collects body mass index (BMI) and preventive screening measures for all CalPERS-KP members through its electronic medical record system Health Connect. Using these data, Kaiser employees prepare an annual Partnership in Health Report for CalPERS that describes the CalPERS-KP population and compares health risk and disease burden metrics with overall KP population data and with national data.

V. ANALYSIS:

Recent trends from the Partnership in Health Report for CalPERS-KP members on health risk factors and preventive care screening are presented in the Attachment. Joel Hyatt, M.D., from KP will provide an overview of the data and discuss the cost, health, and wellness implications for the CalPERS-KP population.

VI. STRATEGIC PLAN:

This directly relates to Goals X, XI and XII of the Strategic Plan which state:

- “Develop and administer quality, sustainable health benefit programs that are responsive to and valued by enrollees and employers.”
- “Promote the ability of members and employers to make informed decisions resulting in improved lifestyle changes and health outcomes.”
- “Engage and influence the healthcare marketplace to provide medical care that optimizes quality, access, and cost.”

VII. RESULTS/COSTS:

This is an information only item.
